Join a lesson

JX8LE

STEP TWO

Enter the code. It will direct you to the Nearpod slides containing the introduction slides and the question.

STEP THREE

Rehearse the self-introduction script given on the slide. It would be even better if your child is able to memorise the introduction.

STEP FOUR

Go through the question given in the slide. If your child is unsure of how to do the question, refer to his/her past worksheets to revise or check in with the teacher.

STEP FIVE

Write down the answer and step-by-step explanation on a piece of paper with your child. Have your child practise explaining to you.

STEP SIX

Rehearse the whole process with your child until they are confident and ready.

Have fun with it! 😊
